GREEN LAKE COUNTY LABOR MARKET

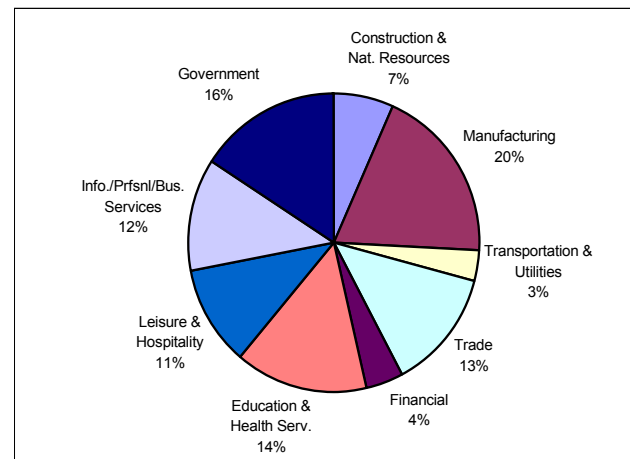

Green Lake County...

has about 20 percent of its jobs employed in the manufacturing sector making it the largest single industry in the county. The percentage of jobs in manufacturing is just above the average for the State of Wisconsin. Employment in this sector has declined during the last eight years. It is in fact, following both national and statewide trends as it declines. Outside of manufacturing workers find employment in the information, professional and business services industries, education and health services, and government services.

Most of the county's workers live and work in the county, however, the number of workers that commute to the county for work is 1,100 less than those that leave the county for work.

Employment by Industry
in Green Lake County: 2002

The annual average wage in 2002 for employers in the larger major industries was: \$27,968 in manufacturing, \$32,239 in business and professional services, and \$23,368 in trade, transportation and utilities. The annual average wage for all industries was \$24,952. This was 77 percent of the average wage of \$32,422 for all workers in the state.
